Cultural operator(s)

Name Acesso Cultura /Access Culture (Portugal)

Short description

We are a not-for-profit association that aims to promote the improvement of access – namely physical, social and intellectual – to cultural venues and the cultural offer, in Portugal and abroad. Our main objectives are:

- to place the issues related to access – physical, social and intellectual – in the centre of the reflection and practice of the cultural sector
- to contribute towards the technical preparation of culture professionals in what concerns access, promoting change on the ground
- to promote dialogue and reflection regarding access in public fora
- to publicly intervene whenever people's right of access to culture is not respected.

Check out what has been done since we started in 2013
