Some examples are homeless people, to contribute to the global improvement of the living conditions of socially and economically vulnerable people in situations of deprivation, exclusion, and risk; children from social and economically disadvantaged contexts, female inmates. We are strongly committed with a global view of dance and of dancers that needs to address both the harms that may come from training as the creative use of dance techniques and methodology to increase the well-being of non- dancers, expanding from the scope of the artistic into the therapeutical, social and political. We have a fully prepared and inclusive dance workspace in Oporto, Portugal, where we develop our regular activities, accommodating residences and creation processes, cultural programming, as well as debates, seminars, and trainings both of a theoretical and practical nature.</i></p>
